Totally Immerse Yourself in the Language and the Culture!

We have designed a **Foreigners Abroad Program** to have you speaking the language in no time. We have put together a course in Toluca, Mexico that mixes both culture and language training. Our program differs from others in that it is our goal to put your needs first. We pride ourselves in customizing the language classes to target your specific needs. We have combined hard work with a relaxed, friendly atmosphere to put the student at ease. You will be the one in charge of what you want to learn. Based on your particular needs we will then devise a program designed to help you reach your goals in the allotted time frame.

The program can work in two ways. For beginners we recommend 2-3 months training in Houston, with classes meeting 2-3 times a week. Then, you will spend 2 weeks in Mexico where you will be totally immersed in the culture. While in Mexico, you will have 4 hours classroom instruction. Then we implement our "hit the road approach". Using this approach you will use what you have learned in the classroom and apply it to everyday situations. This interactive method is the best way for you to learn the culture as well as the language. After your two weeks in Mexico, the next step is our maintenance program. This program will consist of three months, with classes meeting 2-3 times a week for two-hour sessions.

After completing this program, you will be conversational and will be able to speak and understand both the culture and the language.

Our Advanced program works basically in the same basic way. You may be able to speak the language well, but without living in and experiencing the culture you probably will not get 100% of the benefits from it. The advanced program is structured to be more challenging and more difficult, allowing you to test your grasp of the language under actual day-to-day conditions. What you will gain from this program will enable you to benefit and prosper while doing business internationally.

Our packages include the following:
